

BORDLEY TOWNSHIP PROJECT

WHAT WE DID TODAY

20.2.2013

THE LAST FIELD!

I walked over the last field today-field Z5 known as far hollows. There was an interesting line of 4 rabbit smoots in one wall. The sheep creeps were very large with timber lintels-wouldn't like to meet a sheep that big on a dark night!

There were signs of significant quarrying in the central part, some of which is also marked on the 1890s maps.

Time to revisit some other fields.
