

BORDLEY TOWNSHIP PROJECT

WHAT WE DID TODAY

Indoor Work

Julia and I have spent one day a week, since I came out of hospital, working on project work. We have completed the written report on the 'three farm buildings' (we call hennery piggery).

We plan to go out to Bordley Town on Thursday 9th May to start our second building – the small 'double' barn to the west of Bordley Green Farm. We also will be meeting up with the other VB recording group to see how they got on with the recording of Kealcup Laithe. However, the weather forecast isn't good – high winds.

Julia has also been doing a lot of work on the Parish Records and Census and is finding some interesting information about the people who used to live in the Bordley area; where they lived, their jobs e.g. dish thrower!

Artists

If anyone is good at drawing would you like to contact me as we need a lot of sketches (not to scale) doing of the buildings at Bordley Town.
