

## BORDLEY TOWNSHIP PROJECT

### WHAT WE DID TODAY

22nd MAY 2013

Barn Recording

at Bordley Town

Julia Price, Val Walker-Wilton and I met David Emmott at Bordley Town. Whilst David continued recording Barn 003, Julia and I started on north, south and east exterior elevations of the 'barn that was a house', 005. It was a bit difficult sliding between trees to measure the windows....very nice windows they were too! Val's job was to take photographs of the buildings / barns for the written reports.

### **Barn 005**

(Photographs taken by Val Walker-Wilton)

Above left: Ornate window surround

Above right: South frontage

Right: Lintel above door (note the trellis on the right side of the door!)

After lunch with David's help Julia and I completed the measurements of Barn 002. This needed some ingenious wizardry from David to measure the very high walls and buttress!
