

## BORDLEY TOWNSHIP PROJECT

### WHAT WE DID TODAY

12<sup>th</sup> June 2013

Bordley Town

Barn Recording

Today was back to cold and rain...fancy thinking I should have brought my duvet jacket.....in the middle of June! Janis, Pauline and Bob tackled Barn 008. The Shire horse and her foal were out in the field, so it was an ideal opportunity to record the barn, whilst David continued recording Barn 007.

#### Features in Barn 008

- Several wooden lintels above openings
- South wall rebuilt
- Re-used stones
- A double inset shelf (similar to a lantern hole) but set low to the ground
